WHO WE ARE

# A chocolate manufacturer in Gaziantep.

Antep Foods makes chocolate tablets and bars, filled pralines, dragées, spreads and confectionery in its own factory at Başpınar Organised Industrial Zone, Gaziantep — the city where Turkish pistachio grows and where kadayif is made.

Moulding, one-shot and panning lines run under one roof. Every line is packed, palletised and loaded at the factory, so one container can carry several product groups under one set of documents.

We sell under our customers' brands (private label) and under the Antep Foods name.

## Quality and certification

Our factory works under FSSC 22000 — a GFSI-benchmarked food-safety scheme, recognised alongside IFS and BRCGS — together with ISO 22000, ISO 9001, ISO 14001, ISO 45001 and HACCP, and holds Halal and Kosher certification and US FDA facility registration. The technical data sheet of every line is sent with the offer.

# Your brand on our products.

Any line in this catalogue can carry your brand. We adapt pack, flavour and weight where the line allows it, and prepare the label for your market — for Spain in Spanish, to Regulation (EU) No 1169/2011: name of the food, ingredients with allergens, net quantity, storage, best-before date and the importer's details.

01 Your list

Tell us the lines, packs and approximate quantities. A written offer follows within two working days.

02 Samples

Free samples from running production; you cover the courier.

03 Artwork

We prepare the label content; nothing is printed before you approve the artwork in writing.

04 Production and loading

Lines are produced, palletised and loaded at our factory; each pallet is photographed before the doors close.
